SMALL GESTURES, BIG IMPACT

TIPS FOR RESPONSIBLE HOLIDAYS AT THE CAMPSITE

At Sènia, we care for the environment around us. Every action matters, and that's why we work every day to make our campsites more sustainable.

We invite you to be part of this commitment: through small gestures during your stay, you too can make a difference. Enjoy your camping experience while caring for the environment, people, and the planet.

IN YOUR ACCOMMODATION

USE ENERGY, WATER AND SPACE RESPONSIBLY

The cleanest energy is the one we don't use.

Switch off lights and electrical devices when leaving, and set the air conditioning efficiently. In summer, keep it between 24 °C and 26 °C; in spring and autumn, prioritise natural ventilation and, if used, set it between 22 °C and 24 °C.

Every drop counts.

Water is a limited resource, especially in tourist destinations. Turn off the tap when not in use and opt for short showers to help preserve it.

Recycling is also caring.

Sort your waste correctly into organic, packaging, paper and glass. A small gesture that helps with recycling and keeps the surroundings clean.

Your space is borrowed.

In bungalows and pitches, respect assigned boundaries, avoid attaching anything to trees or structures, make use of natural shade, and switch off outdoor lights at night to respect the environment and everyone's rest.

AT THE CAMPSITE

COMMUNITY AND RESPECT FOR THE SHARED ENVIRONMENT

Rest is part of the experience.

Respect quiet hours so everyone can enjoy a peaceful holiday.

Take care of shared spaces.

Treat common areas as if they were your own: together, we keep the campsite clean, pleasant, and welcoming.

Move at the campsite's pace.

Whenever possible, walk or cycle within the site to reduce noise, emissions, and create a calmer and safer environment.

Towards zero plastic.

Bring a reusable bottle and cloth bags to avoid single-use plastics and reduce waste.

IN THE LOCAL AREA

ENJOY THE DESTINATION MINDFULLY AND SUPPORT THE LOCALS

The best footprint is the one you don't leave.

Explore the area without leaving a trace: don't pick plants, don't litter, and respect local wildlife, flora, and regulations to help preserve biodiversity.

Shop with heart.

Choose local and seasonal products, and support nearby businesses in markets, shops and restaurants. This boosts the local economy and leads to more authentic experiences.

Experience the culture from within.

Take part in cultural and sustainable activities that connect you to local traditions and values. You'll learn, grow and make a positive contribution.

Discover slowly, move consciously.

Use bicycles or public transport to get around and enjoy a more eco-friendly journey.
